the *Journal of the American Medical Association* (JAMA) and the *New England Journal of Medicine* (NEJM).

These two journals are the most widely read and cited in the field of medicine. They are also the most expensive, with JAMA costing \$1,200 per year and NEJM costing \$1,000 per year.

There are several reasons why these two journals are so expensive. One reason is that they are both published by large, for-profit publishers. Another reason is that they both have a long history and a large subscriber base.

There are also several reasons why these two journals are so widely read and cited. One reason is that they both publish high-quality research. Another reason is that they both have a large and diverse subscriber base.
